We at United Group of Institutions, aim at creating a workforce of professionals with analytical skills who can dream a better world and transform the dream into reality. We will create a dynamic and collaborative climate to broaden our students' competence; and build an Institute that is resilient, flexible and productive. We will be recognized for high ethical standards and responsiveness to the social environment.

MISSION

We aspire to reassert the significance of high quality education by producing competent professionals who can shape the destiny of our nation into a stronger and developed stature. We envisage that high quality education using interactive methodologies will equip students to excel as a professional. The values instilled among students while imparting education, will strengthen the moral and ethical fabric of the nation and revive the human spirit. The zeal of competitiveness will always be positive and setbacks will only be catalysts for greater achievements With these beliefs, the United Group will strive towards faster evolution, and will make its marks on the global academic map.

That's **YOU** to

It's our mission at UGI to prepare you for the future – whatever it's going to look like for you. With experts predicting that by 2025 around 50 per cent of jobs as we know them today won't exist, it's vital that when you graduate you have a skill set that allows you to reinvent yourself in any industry. So we'll encourage and support you to develop your practical know-how alongside your technical skills, grab opportunities to experience new things here in India and across the globe, get as much hands-on experience as you can, and network with our industry and community partners.

DEPARTMENT OF COMPUTER SCIENCE ENGINEERING

The aim of the department is to train up quality IT professionals and computer engineers to fulfill demand of skilled talent in IT sector. The department promises to go ahead with the challenge and to create a revolution keeping pace with the change of the time. Department of CS & IT offers wide range of practical training and exposure to both Software and Hardware that have industry and trade applicability. The course focuses on complete software development life cycle, database system, knowledge discovery with judicious blend of technical skills.

CAREER OPPORTUNITIES

There are ample career opportunities in the field of Computer Science. A Computer Science degree at UGI will open up avenues for its scholars in the fields of database management, embedded systems, IT, telecommunication, multimedia, computer hardware & software implementation, computer hardware & software maintenance, gaming, web designing and other related industries. Since a computer engineer has an extensive understanding of electronic devices such as microprocessors, local and wide area networks, and even supercomputers that form the basis for worldwide communications, the career paths are wide and varied. Their understanding on microprocessors, local and wide area networks and computers that form the basis for worldwide communications (supercomputers) give them this advantage. With a huge explosion in data and its applications, a career in the field of Computer Science and Information Technology can be very promising as:

- Computer Programmer
- Software Engineer
- System Designer
- Software Developer
- Professor
- Engineering Support Specialist
- Academic Research Editor
- E-Commerce Specialist
- Data Warehouse Analyst
- Big Data Engineer
- Business Intelligence Developer
- Data Scientist

DEPARTMENT OF CIVIL ENGINEERING

Department of Civil Engineering is an integrated department which comprises the best academics, staff and students from around the United Group of Institutions. The department focuses on advanced research and education in the broad area of structural, geotechnical, transportation, surveying, and hydraulic engineering.

The educational objectives of the civil engineering program are designed to produce skilled engineers who are ready to contribute effectively to the civil engineering profession and are ready to handle the challenges of the profession. The civil engineering department is committed to produce civil engineers who:

- Shall apply fundamental technical knowledge and skills to find creative solutions to technological challenges and problems in various areas of basic sciences and engineering.
- Shall be able to analyze, design and use skills in order to formulate and solve civil engineering problems.
- Shall be able to practice civil engineering in a responsible, professional and ethical manner and implement eco- friendly sustainable technologies for the benefit of industry and society.
- To take up higher education & to engage in research and development in civil engineering and allied areas of science and technology.

CAREER OPPORTUNITIES

Electrical engineering is one of the preferred disciplines in the field of engineering and technology. Electrical engineering is divided into many subfields that include electronics, digital computers, power engineering, telecommunications, control systems, radio-frequency engineering, signal processing, instrumentation and microelectronics. Due to the mammoth-like size of the electronics industry and the rapidly increasing use of electricity, career opportunities in Electrical Engineering are also increasing.

The Faculty of E & T, through its courses in Electrical Engineering would mould its students for the options available in the field of building industries and services, manufacturing, construction, design, transportation network, wireless communication, automotive, defense, sales, production, management and distribution of power. Also higher education options are available to those who aspire to choose their profession in teaching and research in electrical engineering. Some of the job profiles are:

- Engineering Technologist
- Development and Test Engineers
- Electrical Product Design Engineer
- Project Manager
- Chief Engineers
- Operations Manager
- Consultants

DEPARTMENT OF MECHANICAL ENGINEERING

Mechanical Engineering Department is one of the oldest and robust departments of the UGI . Objective of the Mechanical Engineering department is to prepare the manpower that is globally best. Most of the students, who graduate from the department, end up taking leading positions in industry, academia and government in both India and abroad. The Mechanical Engineering Program is designed to prepare students for successful careers having positive societal impact in industry, government, academia, and consulting. Our alumni are expected to:

- Apply their engineering knowledge, critical thinking, creativity, and problem solving skills with integrity and inclusivity in professional engineering practice or in non-engineering fields, such as law, medicine, or business.
- Continue their intellectual development through graduate education, professional development courses, self-directed investigation, and/or on-the-job training and experience.

CAREER OPPORTUNITIES

If you are interested in machinery, material science, robotics, micro devices, weapons design, aircraft, watercraft, and their manufacturing, then mechanical engineering is the best choice to convert your passion into profession. Being one of oldest and broadest disciplines of engineering, jobs offered to skilled mechanical engineers are in plenty and unending. Industries like automobiles, space research, bio-mechanical, aeronautical etc. are constantly looking for mechanical engineers and this what this faculty targets and prepares its students for. After the completion of the course in mechanical engineering at UGI, lots of opportunities could be explored upon in various fields of manufacturing, production, services and development. Some of the job profile offered by prominent industries in India and abroad are:

- Mechanical Engineer
- Design Engineer – Mechanical
- Automotive Engineer
- Building systems Engineer
- Power Plant Engineer
- Robotics Engineer
- Chief Mechanical Engineer
- Heating Specialist Engineer
- Lubrication Engineer
- Mould Design Engineer
- Thermal Power Engineer
- Tool Engineer

DEPARTMENT OF COMPUTER APPLICATIONS

At UGI, primary aim of Faculty of Computer Applications is to train and educate individuals who have keen interest and desired skills to be able to fulfill the requirements of the IT industry. The curricula so designed represent a combination of computing trends and latest technologies creating a fertile ground for the cultivation and dissemination of knowledge and skills for the future researchers, powerful academicians and innovative IT Analysts.

LABS & WORKSHOPS

Faculty of Computer Applications at UGI is fully equipped with computer laboratories and smart classrooms. Students are exposed to live industry projects to enable them to gain insights into the working of the IT industry. Students will be able to work on the specializations like Software Development & Testing, Systems Engineering, Networking, Application Software, Hardware Technology, Troubleshooting, Gaming etc.

CAREER OPPORTUNITIES

Career prospects after BCA & MCA include job profiles such as:

- Software Developer
- Software Engineer
- Software Consultant
- Software Application Architect
- Hardware Engineer
- Computer System Analyst
- Database Administrator etc.

DEPARTMENT OF MANAGEMENT STUDIES

Faculty of Management Studies is a research-driven vision of United Group of Institutions that paves a way forward to academic excellence. At UGI, the multi-faceted and scholarly faculty members have core industry background embedded with knowledge and experience to run the programs focusing upon students' practical managerial skills, analytical skills, communication skills and business skills. The uniqueness of this faculty is its strategy and philosophy of imparting business management principles for its application in industrial set up via case studies, projects, presentations, industrial visits and interaction with industry experts.

STUDENT CENTRAL

Chances are this is going to become the centre of your universe. Student Central is where it all happens and where students hang out on campus.

“Student Central is such a student oriented place. It’s one of my favourite places on campus because it’s all about students. I love the fact that we have our own shop at the campus, and I love playing badminton with Team, it’s so easy to book a court in our Sports Hall.”

BEYOND ACADEMICS

ACADEMICS FORM JUST ONE FACET OF THE LIFE AT UNITED. WE ENCOURAGE THE STUDENTS TO NURTURE THEIR LIVES OUTSIDE CLASSROOMS AS WELL. A SIGNIFICANT PART OF THE STUDENT'S YEAR ENCOMPASSES COORDINATING AND PARTICIPATING IN THE ABUNDANT CULTURAL ACTIVITIES.

We believe that being involved in organising such events imbibes a healthy will of competition and cultivates team spirit. events ranging from quizzes, debates, dance, writing, drama, music and literary activities hone an individual and ample platform is provided to showcase their flair.

CLUBS & SOCIETIES

UGI's vibrant tapestry of clubs and societies creates a dynamic campus life, offering students diverse opportunities for growth and exploration. From academic pursuits with the United Toastmasters International Club, Rotract Club, HR Club, Finance Club, to cultural immersion through SPIC MACAY, United embraces a holistic approach. Specialized societies like SPECTRUM, Mechanical Society, Electrical and Electronics Society and CS & IT Society cater to tech enthusiasts, while various student clubs foster shared interests. United offers a community where passions thrive, and connections are made.

TECHFESTS

To exhibit the technical aptitude of our budding engineers, an informative exposition is organized every year. It started with UNITECHFEST; an annual festival extravaganza organized at UNITED. In the subsequent years of roaring success of such FESTS, ENIGMA takes the cue which is not just a technical event but a platform bringing together ingenious minds that can showcase their exuberant talents. Valuable feedback is obtained from the academicians who grace the occasion. This facilitates them to delve into the concepts and theories even further thus grasping the in-depth details about the dynamics of their projects.

LEARNING THROUGH ACTIVITY

Under the wide umbrella of ESEP, UGI offers its students a set of 'transferable skills' that are not specific to one particular career path but are generic across all employment sectors. UGI knows the current market trend & its needs and also its students' interests & potential. With this understanding and emphasis upon a mix of skills required, ESEP@UGI offers myriad of opportunities to the career seekers of United:

1. GATE WAY to 'GATE'
2. Verbal Ability Program (VAP)
3. Campus Recruitment Training (CRT)
4. Technical Trainings (TT)
5. Industrial Exposure
6. Programming Skill Development (PSE)

INNOVATION CENTERS @UNITED

Innovation Centers at UGI are newly established units aiming towards nurturing the innovative ideas of scientifically and technologically-driven young minds and encourages UGI scholars for research project/proposal submissions. The prime objective of these Innovation Centers is to explore and enhance the creativity and Innovation skills of UGI scholars and to pursue research that not only advances science and technology but also has a societal impact. Students with innovative ideas can approach the innovation centre for guidance and financial support. The Center is equipped with state of the art facilities for research and development. Other facilities required for projects like Internet, Printers, Software, Circuit Components, Fabrication support etc are also provided at the center. Application forms may be obtained from the innovation centre. Interested students may submit their applications along with the detailed proposal in the prescribed format and may get the funding from the institute after the project is approved as per the norms and criteria of the Innovation Center. At its seedling stage, the center has received enormous quality projects beyond its expectation.

START UP CELL

'United Start up Cell' aims to help and support young aspiring entrepreneurs of UGI by nurturing and empowering their new and growing startups so that they coordinate and synergize various strands of excellence, innovation and entrepreneurship. The startup ecosystem includes faculty & staff members, students, alumni and business partners that can translate knowledge and technological innovations to the societal development and economical growth of the Nation by turning their ideas into action and thereby producing more job creators and social reformists. It is continually extending and expanding its support system as an INVESTOR, as an INCUBATOR, as a CONSULTANT and as an ACCELERATOR.

INDUSTRIAL EXPOSURE

We at United Group Of Institutions put a lot of emphasis on holistic learning. We believe learning should not be restricted to four walls. To give our students an insight of the internal working environment and to sensitize them to the practical challenges that organizations face we incorporate industrial visit as part of the curriculum. The aim of this industrial visit is "Education – Exposure – Experience"

INNOVATIVE LEARNING

VERBAL ABILITY PROGRAM (VAP)

'Verbal Ability Program' (VAP) is another unique feature of UGI which gets motivation from the alarmingly need of improvement in English Proficiency/Communication and Aptitude along with the other Soft Skills, which often limit students' chances of landing a job. The passionate team of experienced faculty members at United makes the students work upon their Intelligence Quotient (IQ) covering Numerical, Analytical and Reasoning skills along with English Proficiency and also their Emotional Quotient (EQ) covering their Attitude, Communication, Interpersonal and decision-making skills etc.

CAMPUS RECRUITMENT TRAINING (CRT)

Campus Recruitment Training (CRT), a significant training lead by outsourced professional trainers is the obvious solution to unlock students' verbal, numerical, analytical and logical skills. CRT@UGI is very effective tool for empowering especially the final year students with the 'Attitude' and 'Ethics' and making them ready to face the interviews for various in-campus and off-campus drives.

TECHNICAL TRAINING (TT)

Another new practice for 3rd year students is free of cost In-campus 'Technical/Industrial Trainings' for different streams/branches lead by outsourced trainers having industry experience and pulse of Corporate World and who can deliver their corporate experiences, share inside secrets and tips on the business world, explain what is not covered in theory and how to apply theory in real life:

GATE WAY TO GATE@UGI

GATEWAY TO 'GATE' is United's revolutionary trend of mentoring for GATE (Graduate Aptitude Test in Engineering) preparation, which is one of the biggest and the most prestigious exam for engineering graduates organized by the Indian Institute of Science, Bangalore along with all the IIT's on behalf of Government of India, NCB (National Coordination Board – GATE), Department of Higher Education and MHRD (Ministry of Human Resources Development). Spread across 6th to 8th Semesters, this spiral model of GATEWAY TO 'GATE' is an ideal preparatory forum initiated by UGI faculty for UGI students, who aim to qualify GATE and go for higher studies or PSUs.

Special Features of GATE WAY TO GATE:

- Making the students aware about the GATE syllabus and exam pattern.
- Through uniform distribution of subjects/topics across the semesters, reducing the burden at the time of examination.
- Making the students available the GATE reference books and study materials.
- Making the students practice and solve previous year' and sample question papers.

I am here to help you build friendships with different cultures across the globe, get involved with lots of different events and represent your own culture on campus.

United Group of Institutions has academic collaborations with the International Universities/ Institutions, which has provided an umbrella for internationality, innovation, integration, information, technology and industrial partnership to all the bright souls of the group. Signing up of MoU (Memorandum of Understanding) with Asian Institute of Technology (AIT), Bangkok, Thailand, being the first initiative in this endeavor has opened the doors for Global exposure and Global future of Unitians. More than 1050 students have already participated in 'Summer Education Workshop' at AIT and entering into its 12th plan is ready to send good number of identified, talented and technology-driven future leaders from across the UGI in the year 2024. AIT collaboration provides an exchange platform for the students, faculty members with joint research projects, joint cultural programs/projects and joint conferences.

As a next step in this direction, MoU with the Missouri University, Columbia, USA, provides with a framework for a partnership agreement ensuring close cooperation and coordination of efforts concerning training, exchange of experts and scholars, participation in joint conferences etc. At University of Missouri, 15 Unitians participated in an exclusive 3 week summer program, which provided them exposure to the best of the facilities Missouri University had to offer.

Another MoU signed with URV Spain with an agreement to foster initiatives such as student and faculty exchange, joint research projects and cultural exchange.

At URV Spain first batch of Unitians participated in a 15-day summer program which gave them a rich global exposure and enriched their experience.
