Preface

United Group of Institutions (UGI) has always had the privilege of admitting the best and quality pool of talents into the various streams of Engineering and Management programs who excel in their areas of specializations/inetersts/skills and have achieve success in living up to the expectations of the society and the Nation, in a broader sense. The presence of state-of-the-art and world-class learning and research facilities, industry collaborations, global exchange programs, innovation centres, Entrepreneurship Development Cell, interdisciplinary research collaborations and industrial training opportunities help the students of UGI to excel and be ahead in the changing competitive professional environment.

The Corporate Relations Centre is the nodal point for the training and placement of all the institutes of United Group. Placement Season for 2022 passing out batch at UGI started in the month of September 2021 and followed virtual as well as in-campus placement drives. With a huge participation of as many as 175 companies with 1300 registered students for placements witnessed 2101 offers making 1605 students placed in companies of repute till May 25, 2022.

The training and skilling activities organized under the Employability Skills Enhancement Program (ESEP) help the placement registered students for their personal as well as professional grooming and job readiness. There were preparatory activities conducted by the placement cell, in collaboration with the other firms like CodeQuotient, Cocubes, Great Learning etc. All the students got onboarded on the Superset Placement Platform which then started receiving the job options and opportunities in mid September. Company officials also started approaching the CRC during October and November months to commence discussions of their job offerings and later shared their Job Description and Job Applocation Links. Selection processes observed various steps such as Pre Placement Talks (PPT), Group Discussions, Written/Online Aptitude/Technical Tests, Interviews, and final HR rounds before getting the offers released to the deserving and selected students. Placement started with UGI's Day-1 company Infosys followed by TCS, Wipro and Mphasis. Besides some of the other giant corporates offered coveted jobs across sectors recruiting in large numbers, which was pivotal for the success of the placement season 2021-22. The highest number of offers was rolled out by the Engineering and Technology sector, ascertaining the technical proficiency of UGI students.

First Issue of the Placement Bulleting has the pride of sharing and covering different milestones achieved and prospective plans.

FROM THE DESK OF DEAN, CORPORATE & INDUSTRY RELATIONS

It gives me immense pleasure and pride to share this year's Placement Report. Breaking its last year's placement record, United Group of Institutions (UGI) witnessed 2215 placement offers in more than 190 companies till the mid of May 2022 with a record of 86 per cent placement for its Computer Science, IT and Circuit branches, 80 percent for its management streams followed by 66 and 60 percent for its core Mechanical and Civil Engineering branches respectively. This year's Placement Analysis notices the maximum package of Rs 23.5 lakh, average package of Rs 6 lakh and median package of Rs 5.5 lakh per annum.

IT Services and IT consulting majors included 221 offers in Infosys, 272 in Wipro, 165 in TCS, 165 in Mphasis, 35 in Harman Kardon, 30 in Nucleus Software, 24 in Nagarro,18 in HCL Technologies, 14 in Capgemini and many more. Companies including Infosys and Wipro offered both Technology and Management consulting roles. Companies including Walmart, Indus Valley Partners, Merritech Solutions, Mirra Health, Cogitate Technologies and Decimal Technologies offered product roles. Other tech giants such as Hexaware, Zensar, Metacubes, Hexaview, Tech Mahindra and other companies in the IT Services and IT consulting domain offered sector specific roles.

Besides a significant per cent rise in the IT sector, various other sectors witnessed similar upward trends. 190+ companies representing Software, IT, Automobile, Power, Service, Ed Tech, Banking & Finance, E-Commerce, Digital Marketing, Retail, Infrastructure, Manufacturing, Legal & Audit, Real estate, Consultancy, Telecom, Healthcare, Consumer durables etc. participated in the placement season and students across all the streams bagged some of the most sought-after roles in domains such as Artificial Intelligence and Machine Learning, Cloud Computing, Digital strategy, Digital Marketing, Analysts etc. Q H Talbros, Zenus Group, Dhoot Transmission, Q H Talbros and companies alike offered core job roles to core engineering branch students. As many as 114 students of MBA bagged jobs in top banking firms like HDFC, ICICI, etc. at lucrative annual package ranging from 3.5 Lakh to 6 Lakh per annum. UGI witnessed marvelous placement season with an increase in offers across varied sectors, capitalizing on favourable market conditions.

This year's academic and placement achievement could be measured not only in terms of quantity but the q uality as well. Out of total 2215 offers and 1092 students placed, more than 1000 offers fall in the range of 3-4 LPA; as many as 119 students bagged offers with an annual package between 9 to 10 lakh; 683 students till date are sitting with offered package of more than 5 LPA. Moreover, 560+ students are sitting with more than two offers. Students also achieved their dream offers with Software Product companies such as Indus Valley Partners, Meritech Solutions, Farmart, Mirra Health etc. In Infosys also, amongst 221 selections, more than 60 have received Digital Specialist Engineer profiles with CTC 6.25 LPA while three students have bagged the topmost profile of Specialist Engineer also known as Power Programmer with an annual package of 9.5 LPA. We are extremely proud of having been able to continue strengthening our talent pool and recruiter pool thereby bringing an array of diversified opportunities for our bright scholars.

CORPORATE RELATIONS CENTRE (CRC)

The CRC facilitates the process of placement of students graduating from the institute besides collaborating with leading organizations in setting up internship programs for the students. It provides the infrastructural facilities to conduct pre-placement talks, online and written aptitude tests, group discussions, interviews besides catering to the hospitality of industry officials while on campus.

Vision //////////////////////////////////

To nurture the talent and deliver the competent and skilled resources ready to face the challenges of a global industry

Primary Vision of the Corporate Relations Centre (CRC) at United Group of Institutions (UGI) is to build the mutual trust and mutually fulfilling relationship between Industry and Institute in order to bridge the existing gap between the two, ultimately making the students employable, industry-ready and placed on one hand and fulfilling the industrial needs on the other hand.

The Corporate Relations Centre at United Group of Institutions assisted by a dedicated committee of academicians, trainers, counselors, and student volunteers envisages working in a coordinated manner to enhance its mission and life skills.

Mission //////////////////////////////////

- Design training programs for continuous development of Staff and Students
- Offer guidance to the students on career development, resume building and interview skills
- Secure challenging job opportunities
- Need assessment of the corporate world through partnerships with all the stakeholders
- Obtain feedback from industries and corporates
- Create a culture of continuous development and self-learning

Goals //////////////////////////////////

• Building Corporate Connections
CRC plays a significant role in building a meaningful, beneficial and continued relationship with Corporate Companies and Industrial Associations/Bodies nurturing and enhancing the areas of Research, Education, Skill-Development, Placement and Consultancy in close coordination with all internal stakeholders.

• Training, guidance & Counseling
CRC's inevitable agenda is to place the right talent at right place by providing right kind of training opportunities for the students. With the help of CRT, the Centre strives to enhance students' skills and employability via Employability Skills Enhancement Program (ESEP) that offers support and guidance to students in finding suitable career opportunities after their graduate program.

• Placement and Career Development
The ultimate goal of CRC is to make all its aspiring students rightly placed in competitively reputed IT and core manufacturing, infrastructure companies' right at the campus itself. United gives importance for placement activities, skill-mapping and intensive trainings so as to ensure the students get suitable career choices during and after successfully completing the program.
Placement Season 2021-2022

Placement Highlights 2022 Batch

(Till June 30, 2022)

Total Offers 2215
Total placed 1088 in 190 companies

Highest CTC **23.5 LPA**

Avaerage CTC **6 LPA**

1000 Offers with CTC range **3-4 LPA**

119 Students with CTC range **9-10 LPA**

683 Students with CTC more than **5 LPA**

560+ Students with **2 Offers** or more

College/Program-wise Placement Statistics

All the students are categorized into different categories on the basis of their career interests and plans. Some students having their clear focus on higher studies, family business; PSUs / GATE etc do not necessarily participate actively in campus placements. However, all the students interested in jobs/placements register themselves with CRC on its Superset Platform.

Besides, CRC registered students also get placed through channels other than campus placements such as Cocubes, Great Learning, CodeQuotient, SHL, UIIC-AKTU and other off-campus opportunities. The college/Course-wise Placement Status is provided in Table-1, Figure-1 and Figure-2.

Note: Placed count excludes students, who opted for higher studies or had other career options, and hence de-registered from the placement process.

Table 1: College/Course-wise Placement Status as on 31st May 2022

Salary-wise Placement Statistics

This year's Placement Season observed varied salary packages and high to medium profiles across various diversified sectors. More than 119 students bagged offers with CTC ranging from 9 to 10 LPA; one student achieved the topmost CTC offer of 23.5 LPA with Walmart company. Out of total 2151 offers and 1800 students placed, more than 1000 offers fall in the range of 3-4 LPA. 683 students are sitting with offered package of more than 5 LPA while 560+ students have got multiple offers. This suggests an inclining and a positive trend in the pay package offered by various organizations. Salary-wise classification of total offers made in the year 2021 - 22 is shown in Table-3.

UGI Placements – Progressive Journey across 3 years (2020, 2021, 2022)

Despite the challenging market situation in this VUCA environment during and beyond Pandemic, CRC-UGI managed to maintain a good attraction for the recruiting firms. Software IT and ITeS sectors witnessed quite significant recruitments fulfilling the needs of the Digital Economy and Digital Transformation. B.Tech. CS, IT and EC students maintained almost the same demand amongst companies of various sectors. Students of Non-circuit branches adapted with the situations and got absorbed in IT and Core Sectors. Table-5 represents the comparison of students placed over the last three years and the progressive journey of UGI Placements.

VALUE ADDITIONS AT CRC, UGI

Our excellent placement record over the years speaks about the value additions done at the level of CRC by joining hands with training, assessment and recruitment organizations apart from the industries/comapnies. Following collaborations are playing important roles in adding values to the talent pool and its placement:

1. CodeQuotient

CodeQuotient is a Learning and Career platform for aspiring programmers that empowers our students to prepare for high-growth careers in the digital economy. CodeQuotient's intensive, skill-based training programs bridge talent gaps in coding, data analytics, UX/UI, and cyber security. Thousands of students have successfully completed CodeQuotient powered programs and more than 200+ companies employ them.

2. Great Learning (Associated since August 2021)

Great Learning platform provides the pathway to all the students to learn various courses (viz. Java/C++, Dot net developer, MS access and office etc.) to up skill themselves and apparently increase their weight age in the job domain. This time we have facilitated Business Analytics course to our students.

163 students (MBA/MCA/BBA/BCA) of 2021 and 2022 passing out batches were registered for Business Analytics course offered by Great Learning

Placement Process - All the registered candidates must clear the job eligibility test in order to apply for any job opening in Great Learning.

No of selections through Campus Placements via Great Learning - 44 selections till the date for 2021 & 2022 with average package of 4.5 LPA.

3. AON CoCubes

"CoCubes" has been in collaboration with United Group of Institution since 2010. It is India's largest assessment and hiring platform that assesses students to measure and improve their employability; helping them move ahead on their career path. . It is a scientifically designed employability assessment administered nationwide to Final Year Engineering and MBA candidates in a proctored environment. It provides employability related insights and job opportunities to students all over India across different job roles.

The list of companies offered jobs to our students is as follows:

S.No.	Company Name	Salary (LPA)
1	DeTect Technologies	8.00
2	Ameyo	7.50
3	Ameyo	7.50
4	Zenoti Ltd.	7.50
5	Tally Solutions	7.25
6	IHS Markit	6.50
7	Magic EdTech	6.00
8	Power2SME	6.00
9	Magic EdTech	6.00
10	BNP Paribas, Mumbai	5.25
11	Harman Kardon	5.00
12	Cogitate Technology Solutions	5.00
13	Apraava Renewable Energy Private Limited	4.90
14	BNP Paribas, Mumbai	4.30
15	Successive Technologies	4.00
16	Cyber Infrastructure Pvt. Ltd.	3.08

As many as 77 students were placed this year via Cocubes Platform

Company Name	No. of Offered Candidates	Salary Package
Ameyo	4	₹ 750,000
BNP Paribas	9	₹ 525,000
Detect Technologies	2	₹ 800,000
Harman Connected Services	53	₹ 500,000
IHS Markit	4	₹ 650,000
Magic EdTech	4	₹ 600,000
Successive Technologies	1	₹ 400,000
Grand Total	**77**	**Avg - 5.35 Lakhs**

4. Summer Training/Internships with IBM

CRC, UGI has collaborated with IBM for its various offerings towards students' skilling. IBM offers UGI students a 6 weeks' Industry projects for the summer training program on the following technologies:

- Programming with Python
- Machine and Deep Learning
- Artificial Intelligence
- Big Data Analytics
- Business Analytics (for Management Students)

Deliverables from IBM include-
- Digital Badges
- IBM Certificate (Globally valid certificate from IBM)
- IBM Day
- Participation in competition
- Mentorship - Live Virtual

5. MoU with Maven Silicon

CRC has collaborated with Maven Silicon for its job orientation courses producing highly skilled VLSI engineers and helping the semiconductor industry world wide to meet the growing demand of chip design experts.

6. UiPath Student Developer Program and UiPath Community (Career Scope as RPA Developers)

This is another wonderful initiative by Alumnus Juveria Siddiqui, who introduced UGI with UiPath Student Developer Program. The program focuses on enabling students to learn one of the leading RPA technologies from Ui Path through engaging activities and workshops. It also helps students to build and hone communication skills, leadership skills, and a collaborative mindset.

Events/activities done so far:

Agenda – Ui Path and its importance in Projects and Career Prospects

Presenter Alumnus – Juveria Siddiqui,

Co-presenter - Immediate trainee, Ui-Path Champion from

Ui Path Academy – Piyush Agrawal

Date – 6 August, 2021
Agenda – INTRODUCTION TO RPA FOR B. Tech First Year

A Student Developer Program By UiPath Community was organised at UCER auditorium hosted by 3rd year student Mr. Manas Mishra, Ui- Path Champion under the virtual guidance of Ms. Juveria Siddiqui (Notable alumni, 2014 Batch). The two hour long session gave an insight about RPA i.e. Robotic Process Automation, where students were demonstrated on its applications and were informed of the career prospects in this field. Nearly 400 students attended this session enthusiastically.

Date- 10 December, 2021

UGI students' Bot got 2nd prize in Botathon 2.0, powered by UiPath, at JECRC, Jaipur
Dhruv Dixit and Dhreeti Kesharwani from United College of Engineering and Management, registered as Team DDDK, showed their skill and talent while representing UGI and finally got 2nd prize in Botathon 2.0, powered by UiPath, at JECRC, Jaipur.

7. Collaboration with Leverage Edu for Higher Sudies Abroad

Corporate Relations Center (CRC) has joined hands with Leverage Edu for its offering to those who aspire to study abroad and to explore overseas opportunities. In this regard, CRC aims at selecting interested students for their guidance, counseling, training, preparation and then admission in some of the prominent foreign universities of their choice and caliber.

Conclusion

Most of the companies recruited virtually throughout the placement season while a few companies started their campus drives from the months of March 2022. Despite the complexities and adversities, students attended all the training and skilling programs and put their best efforts in learning and career development. The compensation package, numbers of offers given to our students have steadily increased over the years. The placement percentage has been gradually increased over the years. This has clearly showed and ensured both the trust and confidence the corporates have in our institutes and its students.

The importance of the efforts, which were put are reflected well in the NBA accreditation as well, since placement is a major contributing factor here. The complexity of the COVID phase never obstructed our strategy and plans towards our placement goals and objectives. Moreover, the dynamism of job market was retained and uplifted by our rigorous training, mentorship and motivation in pace and sync with the increased corporate selectivity, automation, digitization and competitiveness. Students have become more aware, prepared and ready to join the companies as well. Placement team has achieved its milestones through its dedicated and committed endeavours towards creating more and more opportunities related to students' placements and career development.

Placement Training @ UGI

United Group of Institutions (UGI) is known for imparting quality education along with rigorous training. Its placement oriented training is considered to be a very important aspect for students to enhance their employability skills and achieve good placement in various industries.

For this purpose, United Group has its own dedicated training team that ensures job opportunity to almost every student by conducting various training programs to sharpen the skills of the students. Such programs are meant to be helpful in many ways.

Aptitude Training - Most of the renowned firms take several assessment tests/ aptitude tests for short listing the candidates for personal interviews. IT companies want engineers who have maximum problem solving potential. UGI offers extensive sessions of Quants, Reasoning and Verbal ability where students can brush up their logical skills.

Technical Training - Most of the high profile companies and lucrative packages demand technical skills and coding. Coding is a game-changer and the ones who are skilled in coding have a competitive advantage in career. UGI has a team of experts who train the students technically ensuring high packages.

Mock Tests and Boot Camps - United Group offers mock tests that are designed keeping the same pattern asked in different MNCs so that the students can get the real time experience of exams. Apart from this, company specific Boot Camp sessions are organized to ensure the rigorous practice of the important questions.

Interview Preparation and Resume Building - One of the most crucial steps to get hired by your dream company is to have a very good resume and to excel in the final rounds of personal interviews. The training cell of UGI trains its students for technical and HR rounds through mock interviews and interactive classes.

Soft Skills Training - Through a dedicated team we develop formidable English speaking skills through regular debates, extempore, speech exercises etc. According to experts, the more you speak in a particular language, the more articulate you become in that language.

PSD (Programming Skill Development) Training
The Programming Skill Development(PSD) model at UGI helps students to enhance their programming skills so that they could crack different Pan-India programming-based hackathons. From the first year onwards, students go through the basics of problem-solving to advance level approaches like Dynamic Programming, Backtracking, etc. The outcome could be measured in terms of massive selection in IT Services and Product based companies with higher packages.

How to Make Your Career Plan

Whenever you start planning for your career, some of you often try figuring out what you should do over the next ten or twenty years. While some of you want to figure out "the right career for yourself". But the problem with all of this is that, your plan is almost certainly going to change:

1. You'll change
2. The world will change – many industries around today won't even exist in twenty years.
3. You'll learn more about what's best for you – it's very hard to predict what you're going to be good at ahead of time.

In a sense, there is no single "right career for you". Rather, the best option will keep changing as the world changes and you learn more. So, especially when you're early in your career, most 'plans' will radically change long before they're completed, but we still benefit from having them.

Given this, how should you make a career plan? Here are certain tips on how to shortlist your options and make a plan that's both specific and flexible, while reducing risk:

- Personal fit is very important because it increases your impact, job satisfaction and career capital.
- Since it's really hard to work out what you're going to be good at ahead of time, especially through self-reflection. Therefore, start doing Self investigation and exploration.
- Then narrow down your researched career options; learn more and then try them out.
- Understand the market and job scenario; know your campus jobs; know your alumni and keep adapting your plan over time. Think like a scientist investigating a hypothesis.

Now, there may be some differences just due to luck: even if everyone were an equally good fit, there could still be big differences in outcomes just because some people happen to get lucky while others don't. However, some component is almost certainly due to skill, and this means that you'll have much more impact if you choose an area where you enjoy the work and have good personal fit.

CAREER CAPITAL
(SKILLS, CREDENTIALS, CONNECTIONS)

IMPACT
(PRESSING PROBLEM, RIGHT

SUPPORTIVE CONDITIONS
(BASIC NEEDS, ENGAGING WORK, COLLEAGUES, FIT WITH REST OF LIFE)

Narrowing down your options
1. Make a big list of options
Write out your initial list, including both what problem you want to focus on and what role you want e.g. coder, programmer, quality engineer, researcher focusing on global technology, research, marketing etc. Then force yourself to come up with more. Here are some questions to help you think of more:

1. If you couldn't take any of the options on your first list, what would you do?
2. If money were no object, what would you do?
3. What do your teachers, parents and friends advise?
4. How could you use your most valuable career capital?

2. Rank your options
Start by making an initial guess of how they rank. If you have more time, then score your options from one to five, based on:

1. Impact
2. Personal fit
3. Supportive conditions for job satisfaction
4. Any other factors important to you.
5. Career capital, if you're considering options for the next few years.

The bottom line
You can make a flexible plan by using the A/B/C plan:

- Plan A is the top option you'd like to pursue. If you're relatively confident about what you want to do in the medium-term, focus on that. If you're more uncertain, look to try out several different options before deciding which to aim for. If you're very uncertain, plan to do more research while building flexible career capital.
- Plan Bs are the promising nearby alternatives you can switch into if Plan A doesn't quite go as intended.
- Plan C is your temporary fallback in case everything goes wrong—something easy to achieve. Having a Plan C helps you take bigger risks.

TESTIMONIALS

AMAN KESARWANI
B. TECH. - IT (2022 BATCH)
UNITED COLLEGE OF ENGINEERING & RESEARCH

OFFERED IN
Infosys, ADVANCE, Cloud Certitude, RUFLOS SOFTWARE, INDIAN MERCHANT NAVY, Mphasis The Next Applied, KNOCIAL, wipro, nagarro

" I would like to thank my parents, all the faculty members and CRT - CRC Teams; without their help and guidance, this success would have been much more challenging. I appreciate all of them for their efforts and letting me know what and how to do everything in a systematic manner that helped me achieve my goals. "

JAGRITI SRIVASTAVA
United Institute of Technology
Mechanical Engineering

OFFERED IN
Infosys Navigate your next, wipro, Cambay Consulting Accelerating Digital Transformation, tcs TATA CONSULTANCY SERVICES, Mindtree

" I am really thankful to the Company Recruitment Team for providing me the right environment to grow. Weekly conducted mock tests and interviews helped me to assess my strengths and rectify my weaknesses. The years spent in UGI have been full of opportunities in terms of learning conceptual knowledge and practical exposure. It was real fun and frolic intended with the academic grind that one has to go through. "

AISHWARYA SRIVASTAVA
United College of Engineering & Research
B. Tech. – ECE (2022 Batch)

OFFERED IN
Infosys, Mphasis The Next Applied, BYJU'S The Learning App, wipro

" I would like to express my immense gratitude towards the whole Placement Cell of UGI. They not only provided the good opportunities but also showed the pathway to ace them. The rigorous training under the umbrella of excellent mentors proved to be the cherry on top. I would also like to thank the whole Electronics and Communication Department for their constant support and guidance.

SRISHTI AGRAWAL
B. TECH. – CSE (2022 BATCH)
United College of Engineering & Research, Prayagraj

OFFERED IN
tcs TATA CONSULTANCY SERVICES 5 LPA, wipro 3.5 LPA, Infosys 6.25 LPA, BNP PARIBAS 8 LPA, MountBlue 5.5 LPA, virtusa 5.5 LPA, 8 LPA

I started my placement journey in my third year of college during the global pandemic. Under the expert guidance of CRC team, who helped me to sharpen my skills, prepare for GDs, interviews and coding rounds, I began preparing myself. Following my mentors' directions and never giving up became my success mantra.
