

Report on Guest Lecture on Academic Research Pathway

Date: [27th March, 2026]

Venue: [UIP seminar hall]

Organized by: [United Institute of Pharmacy]

A guest lecture on the topic “**Academic Research Pathway**” was organized by the United Institute of Pharmacy on 27th March, 2026 at UIP seminar hall. The lecture was delivered by our distinguished alumnus **Dr. Pooja Singh** who is currently Postdoctoral Researcher at Gyeongsang National University, South Korea. The session aimed to guide students about career opportunities and the process of pursuing academic research. Principal, Prof. Alok Mukerjee, Dr. Anil Kumar Singh, Dr. Shradhanjali Singh, Dr. Paras Gupta, Dr. Akanksha Gupta, Dr. Pallavi Tiwari were also present to grace this occasion.

The program began with a welcome address by Dr. Nishi Gupta who introduced the speaker and highlighted their academic achievements and contributions to research. The speaker shared their personal academic journey, beginning from their undergraduate studies at the institution to their current role in academia.

During the lecture, the speaker explained the various stages of an academic research career, including postgraduate studies, doctoral research (PhD), postdoctoral work, and academic positions. They discussed how students can identify research interests, choose suitable universities, and prepare strong applications for research programs.

The session also covered important topics such as research methodology, publication of research papers, collaboration in research projects, and the significance of conferences and networking in academia. The speaker emphasized the importance of curiosity, perseverance, and critical thinking for becoming a successful researcher.

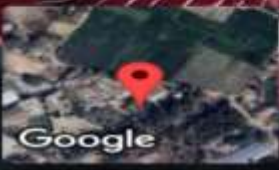

Students actively participated in the interactive question-and-answer session, where they asked questions related to scholarships, research opportunities abroad, and balancing coursework with research activities. The speaker provided valuable advice and practical insights based on their experience.

The lecture proved to be highly informative and motivating for students who aspire to pursue careers in research and academia. The session concluded with a vote of thanks delivered by Dr. Nishi Gupta, expressing gratitude to the speaker for sharing their knowledge and experiences.

Overall, the guest lecture was a meaningful initiative that helped students gain a clear understanding of the academic research pathway and the opportunities available in the field of research.
